

Mujahid Ali

Web3 Blockchain Developer & Security Researcher

Securing and Innovating Blockchain Technologies

✉ mujahidtech985@gmail.com

☎ 03095080028

📍 islamabad, Pakistan

WORK EXPERIENCE

MERN Stack Developer Software development Hub

03/2023 - 09/2023

islamabad,pakistan

Achievements/Tasks

- Application Development
- API Integration
- DataBase Management
- Security
- Debugging & testing

Blockchain Developer Fiverr

03/2023 - Present

Achievements/Tasks

- Developed and deployed smart contracts on Ethereum and other blockchains.
- Conducted security audits for various decentralized applications (DApps).
- Implemented token standards such as ERC-20 and ERC-721.
- Optimized gas usage for blockchain transactions, reducing costs.
- Integrated blockchain solutions with web applications using Web3.js.
- Troubleshooted and resolved blockchain-related issues for clients.
- Conducted code reviews and implemented best practices for secure smart contracts.

EDUCATION

BS in Computer Science Shaheed Zulfiqar ali Bhutto Institute Of Science & Technology

01/2019 - 02/2023

Courses

- Object-Oriented Programming
- Data Structure & Algorithms
- Web Development
- Database System

SKILLS

javascript

HTML

CSS

NODEJS

WEB3.JS

Reactjs

Solidity

Leo

TailwindCss

Foundry

Hardhat

Truffle

etherjs

Security Audits

PERSONAL PROJECTS

SolidSwap

- **SolidSwap** is a decentralized exchange (DEX) built on the Ethereum blockchain using Solidity smart contracts. It allows users to trade ERC20 tokens without relying on a central authority. Inspired by Uniswap, SolidSwap provides liquidity pools, automated market-making (AMM), and seamless token swaps.

SolidCollect

- **SolidCollect** is an NFT collection Dapp built on the Ethereum blockchain using Solidity smart contracts. It allows users to create, buy, and sell unique non-fungible tokens (NFTs) representing digital art, music, game items, videos, and more. As an NFT collector, you can mint your own NFTs or explore existing ones within the SolidCollect ecosystem.

CERTIFICATES

Ethereum Developer Degree (03/2023 - 02/2024)

Freshman Track (May 2023)

Sophomore Track (August 2023)

Junior Track (November 2023)

Senior Track (February 2024)

LANGUAGES

English

Full Professional Proficiency

URdu

Native or Bilingual Proficiency
